2	Approve PricewaterhouseCoopers LLP as Auditors and Authorize Board to Fix Their Remuneration	Mgmt	For	For	For	No
3	Advisory Vote on Executive Compensation Approach	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: Vote AGAINST this non-binding advisory resolution. The quantitative pay-for-performance screen has identified a high concern. The company has underperformed relative to its peer group over both one- and three-year periods, yet the CEO's total pay for 2024 is the highest among peers, exceeding US\$51 million. This elevated compensation level is primarily due to a substantial PSU grant valued at US\$48 million. Although this appears to be a one-time award designed to align the CEO's historical compensation with peer levels, awards of this magnitude can significantly restrict the board's flexibility to effectively adjust future compensation, especially in response to unforeseen events, shifts in company performance, or strategic realignments. Additionally, the average CEO compensation over the mid- and long-term significantly exceeds the peer group median. In addition, the company continues to have significant problematic pay practices, including excessive internal pay disparity, uncapped annual bonus, guaranteed salary increases and problematic change in control provisions included in the extended MSA with the CEO. Considering the pay-for-performance misalignment and persistent problematic pay practices, shareholders are advised to vote WITHHOLD for the continuing compensation committee members, Katherine M. Lee (committee chair), P. Jane Gavan and Benjamin Stein.

8	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The management board's pay package remains substantially above what peers are paying, mainly stemming from the base salary, which is even above that of Europe's largest banks. <i>Voting Policy Rationale: Board elections (Items 5.1 – 5.5) Votes AGAINST the non-independent nominees: Beat Luethi, Vanessa Frey, Beat Siegrist, and Lukas Winkler are warranted because of the failure to establish a sufficiently independent board. Votes AGAINST the non-independent audit committee members, Vanessa Frey and Beat Siegrist, are further warranted because of the failure to establish a majority-independent committee. A vote FOR the remaining independent nominee is warranted due to a lack of further concerns. Committee elections (Items 6.1 – 6.3) We note that the company has a combined compensation and nomination committee. As such, a vote AGAINST the incumbent chair, Beat Siegrist, is warranted as a signal of concern to the board because the board is insufficiently diverse. Votes AGAINST Beat Siegrist and Lukas Winkler are further warranted due to the failure to establish a majority-independent committee and because their elections to the board do not warrant support. A vote FOR the remaining independent nominee is warranted due to a lack of concerns.</i>

<i>Voting Policy Rationale: Board elections (Items 4.1 - 4.2.6) Votes AGAINST the non-independent audit committee members, Roland Iff and Albrecht Langhart, are warranted due to the failure to establish a majority-independent audit committee and because Iff serves as non-independent chair. Votes FOR the remaining nominees are warranted due to a lack of further concerns. Compensation committee elections (Items 4.3.1 - 4.3.3) We note that the company has a combined nomination and compensation committee. As such, a vote AGAINST the incumbent chair, Roland Ledergerber, is warranted as a signal of concern to the board because the board is insufficiently gender diverse. Votes For the remaining nominees are warranted due to a lack of further concerns.</i>

Voting Policy Rationale: Fixed Compensation (Item 4.2) A vote FOR this item is warranted because the proposal appears to be in line with market practice. However, it is not without some concern considering the lack of a specific explanation for increased compensation for executives excluding the CEO in the past year. Variable Compensation (Item 4.3) A vote AGAINST this proposal is warranted because: * There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. As such, performance achievements underlying the requested amount are unclear. * There is no long-term incentive component that measures performance over a multi-year period and no equity-based component within the framework. * Because the company has not provided shareholders with a non-binding resolution on the remuneration report, this is the most appropriate item for expressing a view on the company's variable remuneration practices.

Voting Policy Rationale: This company is listed on the ADX secondary stock exchange (Growth Market), which serves as a platform for listing of shares of privately owned companies (private joint stock companies), through private placement or direct listing. Listings on the Growth Market do not require an IPO, consequently, such companies are subject to less strict regulations (issued by the Ministry of Economy instead of the Securities and Commodities Authority) than those applying to public joint stock companies. This allows private companies to benefit from a simplified and less rigorous listing process compared to the ADX Main Market while offering access to a diverse group of regional and global investors. The market also offers companies support from ADX in terms of investor engagement and provides an opportunity to bolster their brand recognition. This is also confirmed by the company's bylaws. 11.2	Appoint Deloitte Auditing and Consulting Ltd as Auditor for Sustainability Reporting	Mgmt	For	For	For	No
12	Amend Remuneration Policy	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The policy lacks disclosure regarding the extraordinary, per-case bonus, while the remuneration committee has the discretionary power to grant such an award; * The company does not disclose the necessary performance criteria and their parameters for the LTI and STI. In particular, the well-defined performance conditions with the targets, maximum and minimum payouts are not disclosed; * The remuneration and nomination committee is composed of the members of the board of directors, performing the executive functions at the company. The committee is authorized to grant special bonus to executives and determine the parameters of the variable components of remuneration; * Some variable remuneration programs (LTIP and Share Matching Plan) are directly linked to the performance of the company's controlling entity - Deutsche Telekom. The long-term incentive linked to the performance of the controlling company were not justified by a sound rationale, while such practice does not seem to be in line with the interests of minority shareholders; * The fixed base remuneration and the caps on the variable remuneration were not disclosed for the CEO and chief officers. Therefore, shareholders have no means to assess the remuneration range for executives; * Some contractual terms of the CEO and chief officers were not disclosed, such as the severance terms, non-compete agreement, as well as malus and clawback provisions for each component of remuneration; * Clawback is waived for two components of the remuneration: the annual bonus and the Game changer incentive plan; * The derogation clause in the policy is broadly-defined and lacks clarity.</i>						
13	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The details of exceptional bonuses paid to two executives were not disclosed suggesting the discretionary character of payments; * The significant increase in total compensation of the CEO and other executives was not supported by a compelling rationale and the disclosure provided does not allow to align the raise in the total compensation with achievement of the ex-ante established performance targets; * The company's discloses the compensation related to the long-term performance program in the aggregate amount; * The company does not disclose all performance criteria and their parameters for the LTI and STI in a measurable way. In particular, the target values of the performance criteria, thresholds, caps, as well as levels of achievement and corresponding payouts are not disclosed; * The company does not disclose the average employee pay; * The remuneration and nomination committee is composed of board members performing executive functions; * Some performance conditions of LTI programs are tied to the performance of the company's controlling, majority shareholder; * Clawback is waived for variable remuneration.</i>

6	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
	<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The assessment of the ESG metric is still not defined and disclosed, which avoids shareholders to assess the pay for performance alignment; * The continued existence of a specific 'one-off and exceptional' bonus scheme without any further guidance or restriction on the use of this discretion, not applicability of a cap or limit; * The retroactive inclusion of the one-time CEO share award (awarded in 2024) which undermines policy consistency; * Continued concern on absence of clear disclosure of performance KPIs, which is further exacerbated by the poor disclosure in the remuneration report; * Executives can opt out of equity LTI in favor of guaranteed cash delivery LTI.</i>					
7	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
	<i>Voting Policy Rationale: A vote AGAINST is warranted, because the remuneration report is below par in relation to market standards, particularly with regard to * Disclosure of targets, thresholds and levels of achievement of the metrics under the STIP and LTIP and the lack of information regarding the vested awards under the LTIP plan. * Discretionary 75,000 share award granted to the CEO without performance conditions or transparent criteria * Significant CEO base salary increase (+ EUR 400,000) for the evolving international activities of the company, not supported by sufficient benchmarking or rationale. * Lack of adequate responsiveness to shareholder dissent.</i>

14c.8	Elect Jan Berntsson as New Director	Mgmt	For	For	For	No
Voting Policy Rationale: A vote FOR candidates Viveka Beckeman, Jan Berntsson, Magnus Heimburg, Jenny Larsson and Neil McArthur (Items 14c.2, 14c.3, 14c.4, 14c.7 and 14c.8) is warranted due to a lack of concern regarding the suitability of these individuals. Overboarding A vote FOR candidate chairman Tom Erixon (Item 14c.1) as a regular director is warranted as shareholders are able to raise concerns regarding overboarding of the candidate as a chairman of the board under a separate election item (see Item 14d). Audit Committee A vote AGAINST candidates Asa Pettersson and Kristina Schauman (Items 14c.5 and 14c.6) is warranted due to their non-independent status on the audit committee with insufficient level of overall independence. Additionally, the audit committee chairman Kristina Schauman is non-independent.

<i>Voting Policy Rationale: Board elections (Items 5.1 – 5.7) Votes AGAINST the non-independent nominees: Daniel Hofer, David Bourg, Maya Bundt, Felix Graf, Jolanda Grob, Xavier Le Clef, and Markus Scheidegger are warranted because of the failure to establish a sufficiently independent board. Votes AGAINST the non-independent audit committee members, David Bourg and Maya Bundt, are further warranted due to the failure to establish a majority-independent committee and because Bourg serves as chair. Board chair election (Item 6) A vote AGAINST Daniel Hofer as board chair is warranted because he holds an excessive number of mandates at listed companies and because his election to the board does not warrant support. Committee elections (Items 7.1-7.2) We note that the company has a combined nomination and compensation committee. As such, a vote AGAINST the incumbent chair, Jolanda Grob, is warranted as a signal of concern to the board because the board is insufficiently gender diverse. <i>Voting Policy Rationale: A vote AGAINST is warranted because: * Although the company does not consider option grants to fall under variable remuneration, it is unclear what the annual grant of option entails and whether a clear cap is applicable. Although we recognize the company is annually requesting shareholder approval for the specific allocation of a number of options, concerns are raised over the absence of clear disclosure of a cap. * In deviation of market practices the proposed policy gives discretion to the board to grant exceptional bonuses or equity grants in a recruiting or acquisition context. We do note that the company updated its derogation clause defining which situations may be considered exceptional and to which extent performance criteria and variable remuneration may be modified. Shareholders generally believe that remuneration policies should avoid too much discretion to the board in determining exceptional awards or deviations with further assurance. * Lacking compelling rationale for proposed significant increase of chair's fee (from EUR 120,000 to EUR 270,000).</i>

5.1	Approve Remuneration Report (Non-Binding)	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * Despite improvements, ex-post disclosure remains insufficient to explain variable payouts for the year. * Maximum variable compensation was increased and the company has failed to provide a compelling rationale. * The compensation framework does not include a component that measures performance over a multi-year period. * The compensation report does not directly address low shareholder support on the prior vote, though this is somewhat mitigated by additional disclosures provided.</i>

<i>Voting Policy Rationale: Board elections (Items 6.1 – 6.7) A vote AGAINST the incumbent nomination committee chair, Sarah Kreienbuehl, is warranted as a signal of concern to the board because the board is insufficiently gender diverse. Votes FOR the remaining nominees are warranted due to a lack of further concerns. Board chair election (Item 7) A vote AGAINST Thomas Oetterli is warranted because he serves as combined CEO and board chair, which is a breach of market best practice. Furthermore, some shareholders may be concerned that Oetterli is considered overboarded, although we note that he has a lead executive role at the company. Compensation committee elections (Items 8.1 – 8.3) A vote AGAINST Sarah Kreienbuehl is warranted because her election to the board does not warrant support. 9	Approve Remuneration of Company's Management	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: Shareholders should note that the company has improved its governance practices, presenting the global compensation cap exclusively for 2025, while until the 2023 AGM, it used to propose biannual global caps. However, a vote AGAINST this item is warranted because: * The figure reported by the company for the total compensation of its highest-paid executive does not appear inclusive of all elements of the executive's pay; and * The company reported a non-executive director as its highest-paid administrator for the most recent fiscal year, indicating that a member of the board (generally the non-executive chair) received greater compensation than the remuneration paid to the company's highest-paid executive (generally the CEO). The board chair is a founder and controlling shareholder of the company, and no rationale was disclosed for this concerning pay practice.

<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The remuneration policy does not provide caps for the other executive's short-term incentives. * The short-term variable remuneration does not contain clear award levels. * The new ESG metrics under the CEO's STIP don't have an independent impact on the actual payout, whereas the STI bonus is still depending on the operational cash flow level of the company. * The company does not provide sufficient information on the performance targets of long-term incentive plan. * There is no disclosure on contractual terms such as severance agreements, termination arrangements or notice periods. However, the company has made improvements regarding the CEO's STIP maximum bonus disclosure and the implementation of new modifier metrics for the STIP.</i>

4.1	Elect Eduardo Nordskog Duarte as Fiscal Council Member and Gustavo Bueno Norberto as Alternate Appointed by Preferred Shareholder	SH	None	Abstain	Abstain	No
<i>Voting Policy Rationale: Minority shareholders have presented two sets of competing nominees disputing the single fiscal council seat (and alternate) reserved for a minority preferred shareholders' representative to be elected in a separate election, without the participation of the controlling shareholder. While both nominees, and respective alternates, appear to be well-qualified, a vote FOR the candidate Andre Luis Renno Guimaraes and alternate Fabio Davidovici (Item 4.2) is recommended given that there are no known concerns with the incumbent nominees, who would likely bring greater experience to the fiscal council. As minority shareholders can elect only one nominee (and alternate) to the seat reserved for the preferred minority shareholders' representative, an ABSTAIN vote is warranted to Item 4.1. This recommendation should not be interpreted as a negative assessment of the proposed fiscal council nominees' experience or qualifications. Institutional shareholders should provide explicit voting instructions if they seek to elect a specific candidate.</i>

1	Approve Remuneration of Company's Management	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST this proposal is warranted because the figure reported by the company for the total compensation of its highest-paid executive does not appear inclusive of all elements of the executive's pay. Moreover, the company reported a non-executive director as its highest-paid administrator for the most recent fiscal year, indicating that a member of the board (generally the non-executive chair) received greater compensation than the remuneration paid to the company's highest-paid executive (generally the CEO). No rationale was disclosed for this concerning pay practice.

5	Approve Allocation of Income	Mgmt	For	For	For	No
6	Approve Discharge of Directors	Mgmt	For	For	For	No
7	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: A vote AGAINST is warranted, because: * Sword Group did not address significant shareholder dissent on remuneration-related proposals, whereas only 68.2 percent voted in favor of the 2023 remuneration report; * the company does not operate any performance-based remuneration plan; * there is no disclosure on the composition of the CEO's pay package which has increased by 75.9 percent without any compelling explanation; and * the CEO/executive chairman received his yearly director fees and received an extra compensation of EUR 650,000 via its controlled company Financiere Semaphore.					
8	Approve Remuneration and Nomination Policy	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: A vote AGAINST is warranted because the existing pay arrangement with the CEO leads to an opaque remuneration structure without transparency and accountability on remuneration in deviation of reporting requirements. While we recognize the proposed remuneration policy itself is broadly in line with market practice, regarding both actual content and disclosure, the CEO's remuneration is solely based on an external compensation via Financiere Semaphore, a company controlled by the CEO and that provides services to the company. Furthermore, no responsiveness is provided by the company regarding last year's dissent on the remuneration policy, while only 88.4 percent voted in favor.					
9	Elect Philippe Blanche as Director	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: A vote AGAINST Philippe Blanche is warranted, because the nominee is non-independent whereas the board lacks sufficient independence among its members and the board is insufficiently diverse.

As Chair of the Nomination Committee, he is considered ultimately responsible for the Board's diversity issues. The main reasons for support are: * The Company's explanation is acknowledged, as well as that the extension to the Board Chair's tenure is not intended for only up to three years. * The Company commits to meet the diversity reporting target, and it is recognised that a key committee chair position is currently held by a woman. Item 8-13 A vote FOR these Directors is warranted as no significant concerns have been identified.

6	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The reporting is complex and difficult to understand from an external perspective. * The CEO received a significant base salary increase during the year without a detailed explanation. * There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. * There are concerns regarding equity compensation practices considering awards that partially vest in less than three years and do not require the achievement of performance conditions. * Discretionary payments were awarded in the last year without detailed and compelling explanations. * The largest shareholder, AOB Invest GmbH, financed awards for two executives, which raises concern regarding the potential for asymmetric accountability towards shareholders. * The report does not directly address significant shareholder dissent on the prior vote.

10.1	Elect Moritz Zimmermann to the Supervisory Board	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: Votes AGAINST the non-independent nominees, Rolf Baron Vielhauer von Hohenhau and Klaus Bauer, are warranted because of the failure to establish a sufficiently independent board and audit committee. A vote AGAINST Klaus Bauer is further warranted because he is non-independent and currently the chair of the audit committee. Because the company does not have a standalone nomination committee, a vote AGAINST the current board chair, Moritz Zimmermann, is warranted as a signal of concern to the board because the board is insufficiently gender diverse.

<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * Despite some improvement, the ex-post disclosures provided to explain variable payouts remain inadequate. * Under the LTI, executives receive RSU grants that are subject to a discretionary assessment and do not require the achievement of performance conditions thereafter. * The report does not directly address the low (free float) support on the prior vote.</i>

<i>Voting Policy Rationale: A vote AGAINST this item is considered warranted because: * The implementation of the annual bonus scheme, which is uncapped, has consistently resulted in excessive bonus payouts. This is again the case for FY2024, where the CEO earned an award of GBP 11,098,000 (8.2% of PBT). Repeated shareholder dissent has been observed in recent years against the remuneration report, which appears to be attributed to the operation of the bonus scheme and the resulting quantum.</i>

<i>Voting Policy Rationale: Item 4 A vote FOR this Director is considered warranted, although it is not without concern as: * Laurence Hollingworth is both Board Chair and a member of the Remuneration Committee, where repeated material concerns continue to be noted in respect of the Company's remuneration arrangements, leading to escalating levels of shareholder dissent remaining unaddressed. The main reason for support is: * The concerns pertaining to remuneration are currently considered to be suitably reflected in the vote recommendations of the remuneration report (Item 2) and the re-election of the Chair of the Remuneration Committee (Item 10). Items 5-6, 8 & 9 A vote FOR these Directors is considered warranted, as no significant concerns have been identified. Item 7 A vote FOR this Director is considered warranted, although it is not without concern as: * Martine Bond is a member of the Remuneration Committee, where repeated material concerns continue to be highlighted in respect of the Company's remuneration arrangements. As a member of the Remuneration Committee, she is considered partially accountable for the remuneration practices at board level. The main reason for support is: * The concerns pertaining to remuneration are currently considered to be suitably reflected in the vote recommendations of the remuneration report (Item 2) and the re-election of the Chair of the Remuneration Committee (Item 10). Item 10 A vote AGAINST this Director is warranted: * As Chair of the Remuneration Committee, Dr Tim Miller is considered ultimately accountable for the repeated material remuneration concerns expressed in recent years. Furthermore, year-on-year shareholder dissent continues to be expressed by investors, which remains largely unaddressed.</i>

Furthermore, year-on-year shareholder dissent continues to be expressed by investors, which remains largely unaddressed.</i>

Voting Policy Rationale: Item 4-7, 9 and 10: A vote FOR these Directors is considered warranted, as no significant concerns have been identified. Item 8: A vote FOR the re-election of Nigel Rich is considered warranted: * The board composition falls short of two of the Listing Rules' diversity targets (40% of women on the Board and at least one director from a minority ethnic background). There is no improvement since the last AGM. Nigel Rich, in his capacity as the Nomination Committee Chair, is considered responsible for diversity at Board level. The main reasons for support are: * The Nomination Committee has stated that it will take into account the board diversity targets in succession planning. * The size of the relatively young Board, with tenure ranging between two to five years, is acknowledged.

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction	Vote Against Mgmt
	<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted. This is to signal concerns for appropriate corporate governance in regard to the sale of shares by the CEO in the company-approved trading window. This was not subject to chair and board approval. In a period shortly after the share sales, the company announced an adverse outcome regarding the Supply and Service Contract with Commonwealth Bank of Australia (CBA), at which point the CEO failed to meet the minimum shareholding requirement (MSR) at the prevailing share price. Added concerns for inconsistency with good corporate governance standards in the local market include: * Dividends on unvested shares are offered on the LTI for dividends paid during the performance period of the rights, where there is no present entitlement to the shares or dividends. * Poor disclosure and insufficient rigour of STI performance measures - the NPAT target was set below the prior year's result and the GWP target was set below the prior year target. * The service-based deferred equity is included for the purpose of calculating the MSR.</i>					
2	Approve Grant of Share Rights to Pauline Blight-Johnston	Mgmt	For	Against	Against	Yes
	<i>Voting Policy Rationale: A vote AGAINST the grant of share rights to the CEO Pauline Blight-Johnston is warranted. The company is seeking advance approval to grant additional share rights representing notional dividend equivalents, known as "dividends on unvested shares" in respect of LTI rights that are still on-foot and have not vested. At no time during the performance period of the rights is there any ownership of, or present entitlement to, shares or dividends paid. Additional concerns are noted for the calculation of the "underlying" ROE may involve excessive judgement or discretion which may be misaligned with actual performance and shareholder outcomes.</i>

	<i>Voting Policy Rationale: A vote AGAINST the re-election of Alistair Muir (Item 4) and elections of Andrew Moore and JoAnne Stephenson (Item 5 & 6) is warranted. Corporate governance concerns are identified regarding the CBA Supply and Service Contract and the CEO share sales. The sale of shares took place in a company-approved trading window without approval of the Chair or Board in a period prior to the announcement of the adverse outcome of the CBA RFP to a level below the minimum shareholding requirement immediately after the announcement.</i>

Regarding the proposed LTI grant, the budget further remains aligned with that prior to the expansion of executive management on an average per person basis. However, this is not without some concern: * Ex post information to explain STI payouts is overall somewhat limited, especially regarding the qualitative factor applying to executives other than the CEO for up to 10 percent. * The company lacks a clear policy regarding LTI target grants which makes the proposed increase appear arbitrary, a concern exacerbated by increases consistently implemented over the years since the plan's implementation in 2021.</i>

<i>Voting Policy Rationale: Vote FOR all proposed nominees. The quantitative pay-for-performance screen has identified a high concern driven by the company's multiple of peer group median (MOM). However, this concern level has been reduced to medium after considering the following qualitative factors: * During 2024 the CEO's total compensation increased by 3.5 percent, primarily due to a slightly increased STIP payout, which was dependent on the satisfaction of performance conditions; * The company's TSR has improved in the most recent year and outperformed its selected peers, its GICS group, and the TSX Composite Index; * The CEO's pay appears to be consistently below the median of the company's self-selected peers; and * The company made changes to its compensation programs and compensation benchmarking peer group during 2024 which are expected to take effect in 2025 and should lead to improved pay-for-performance alignment. On balance, the company has demonstrated adequate stewardship of investors' interests regarding executive compensation. Nevertheless, ISS will continue to monitor the company for any potential executive pay and company performance misalignment.</i>

1.1	Re-elect Nigel Payne as Director	Mgmt	For	For	For	No
Voting Policy Rationale: Items 1.1-1.2 A vote FOR these Directors is considered warranted, although not without concern: * Nigel Payne and Sam Sithole are non-independent NEDs who serve as members of the Remuneration Committee on which there is no majority of independent NEDs among the members at present. The main reasons for support are: * The advisory agreement with Nigel Payne has been terminated in June 2024 following shareholder feedback. Thus, moving forward, he may be considered independent assuming no other potential independence concerns are identified. As such, while Sam Sithole remains non-independent, majority of NEDs on the Remuneration Committee will be considered independent. This will be reviewed again ahead of the next AGM. Item 1.3 A vote FOR this Director is considered warranted as no issues have been identified in relation to re-election of Zimkhitha Zatu Moloi.

4a	Elect Bernard Byrne as Director	Mgmt	For	For	For	No
Voting Policy Rationale: Items 4a to 4c and 4e to 4g A vote FOR these Directors is considered warranted as no significant concerns have been identified. Item 4d A vote FOR the re-election of Giles Davies is considered warranted, although it is not without concern: * As he has served as a NED on the Board for 10 years concurrently with the CEO, he is no longer deemed independent, but serves as a member of the Remuneration Committee. This falls short of the UK Code recommendation that all members of this Committee should be independent. The main reason for support is: * The Company announced that he is to step down by the end of 2025. Item 4h A vote FOR the re-election of Julie Sinnamon is considered warranted, although it is not without concern: * She is the Nomination Committee Chair who is considered to be ultimately accountable for board diversity. Currently, the Board does not meet the recommendation of having at least one Director from an ethnic minority background. The main reasons for support are: * The overall gender diversity of the Board improved during the year under review through the appointment of NED and a woman has been appointed to the SID position. * The Company has stated that ethnic diversity will be considered in future recruitment processes.

<i>Voting Policy Rationale: A vote FOR these resolutions is warranted, although this is not without concern for shareholders: * If the Company were to issue Tier 1 Bonds and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: * Such authorities are common proposals at UK banks and are intended to apply in extreme circumstances only; and * The conversion into ordinary shares would require the CET1 ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.</i>

Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The CEO received a significant base salary increase during the year without a detailed explanation. * There is insufficient ex-post disclosure to explain outcomes under the variable incentive plan. * Special bonuses were awarded during the year without an accompanying and compelling justification. * There is no standalone long-term incentive that measures performance over a multi-year period. * Non-executive director fees were subject to material increases without an explanation.

1	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted. * To account for the fatality that was reported during FY24, disclosure indicates that the board exercised discretion to deduct only 5% from the STI bonus (i.e., from 100% achievement to 95%). This does not appear to reflect the level of accountability typically seen in the local market amongst ASX300 companies. Typically, at a minimum, the safety performance measure in the STI is reduced to a nil result. In this company, safety is 10% of the STI. * There appears no formal policy on fatality which is inconsistent with better market practice amongst ASX-listed miners. In 2025, wording is expected to be included for board discretion in the event of a major incident resulting in, amongst other things, a fatality. * Disclosure indicates that Executive Director fixed remuneration will be increased substantially in 2025 between 43% and 51%. This is excessive and highly irregular amongst ASX300 companies in the local market. Persisting concerns for poor corporate governance include the following: * No disclosure of outcomes of vesting (or forfeiture) for prior period performance rights grants, nor disclosure of the level of achievements against performance measures. This continues to be materially inconsistent with market standards amongst ASX300 companies. * There is disclosure of potential early testing and vesting of the 'Production' performance measure in the FY24 LTI. Accepted market standards for LTIs in ASX300 companies is for a performance period of at least 3 years prior to any vesting, and some gold mining peers are using performance periods of four years. * There is potential to reward twice for the same result, given that a production performance measure is included in both the STI and LTI.</i>						
2	Elect Lyndon Hopkins as Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: Item 2 A qualified vote FOR the re-election of Executive Director and COO Lyndon Hopkins is warranted. The qualification is to highlight concerns that the board comprises three executive directors, which is inconsistent with governance standards in the Australian market and results in a low level of board independence of 57 percent. Item 3 A vote FOR the election of Jayde Webb is warranted. No material issues have been identified in respect of board and committee composition, nor any wider corporate governance concerns.</i>

4	Approve Issuance of Fee Performance Rights to Jayde Webb in Lieu of Director Fees Under the Plan	Mgmt	For	For	For	No
5	Approve Issuance of Incentive Performance Rights to Richard Hyde Under Plan	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A qualified vote FOR these resolutions is warranted. Performance measures are well disclosed and aligned with improved company performance and shareholder outcomes. The qualification is to raise concerns for: * The FY25 STI equity component represents the deferred component of the FY25 STI bonus. This is an advance approval of a bonus which is inconsistent with good market practice, noting the FY25 performance period has not been completed. In mitigating, the performance targets for the FY25 STI are well presented which is in fact superior market practice. * The performance measures for the FY25 LTI grant are well disclosed and comprise production and sustainability goals and milestones which are aligned with improved shareholder interests. However, inconsistencies with market include, * double counting of production performance measures in the STI and LTI, essentially offering bonuses twice for the same performance, and * the LTI metrics lack any objective financial measures of performance such as TSR. * The quantum of the 2025 STI and LTI has increased substantially over the prior year following the substantial and excessive increases in fixed remuneration to the executive directors.</i>

This is an advance approval of a bonus which is inconsistent with good market practice, noting the FY25 performance period has not been completed. In mitigating, the performance targets for the FY25 STI are well presented which is in fact superior market practice. * The performance measures for the FY25 LTI grant are well disclosed and comprise production and sustainability goals and milestones which are aligned with improved shareholder interests. However, inconsistencies with market include, * double counting of production performance measures in the STI and LTI, essentially offering bonuses twice for the same performance, and * the LTI metrics lack any objective financial measures of performance such as TSR. * The quantum of the 2025 STI and LTI has increased substantially over the prior year following the substantial and excessive increases in fixed remuneration to the executive directors.

<i>Voting Policy Rationale: A vote FOR candidates Per Allmer, Lars Eklof, Karin Gunnarsson, Jonas Hard and Johan Wester (Items 13.2-13.6) is warranted due to a lack of concern regarding the suitability of these individuals in particular. Although Per Nilsson (13.1) would be considered overboarded upon election as chairman of the board, support for his election as a regular director is warranted because shareholders are able to vote on his election as board chairman separately.</i>

2.(a)	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: This item warrants a vote AGAINST because: * Termination payments can be in excess of 24 months' pay. * The board maintains excessively broad derogation powers. * The lack of a long-term incentive plan and the generous fixed pay of the CEO suggests that the company's remuneration approach is primarily oriented toward the short-termism.

11	Authorize Share Repurchase Program and Reissuance or Cancellation of Repurchased Shares	Mgmt	For	For	For	No
12	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The company deviated from the remuneration system in connection with the appointment of the new CEO/CTO. Additionally, the new CEO/CTO received a guaranteed STI. Concern is raised regarding the lack of a detailed and compelling explanation for these actions. * There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. * Performance-based variable compensation was paid to non-executive directors in FY 2024.						
13	Approve Management Board Remuneration Policy	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The proposed policy contains significant scope for the award of discretionary payments via extraordinary bonuses. * Performance targets under the STI are defined in vague terms without concrete KPIs and metric weightings. * While the derogation clause defines certain components, it does not specify to what extent derogation may apply.						
14	Approve Supervisory Board Remuneration Policy	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: Item 14 A vote AGAINST the supervisory board remuneration policy is warranted because it states that the AGM may continue to resolve to establish one or more long-term variable remuneration components to non-executive directors. Item 15 A vote AGAINST this proposal is warranted because it introduces a new LTIP for non-executive directors.

12	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this item is warranted because: * The company does not provide any rationale for a significant (+11%) increase in the fixed pay of the company's CEO, Andrzej Ilczuk; * The company's CEO received variable remuneration from contracts that do not cover activities falling within the scope of functions serving in the management board. The detailed conditions for awarding this remuneration, the method of calculating and payment are specified in the service agreement and are not disclosed further in the report; * The vesting period of options under LTIP 2024-2025 is not disclosed; however, the provided information suggests that it is less than three years. It should also be noted that the performance period for achieving the financial criteria of this LTIP is only two years. The acquired shares are subject to a very short lock-up period of only 180 days; * The members of the company's supervisory board received retirement benefits in the framework of the Employee Capital Plan. However, we note that non-executive participation in the Employee Capital Plan is a common market practice.</i>

<i>Voting Policy Rationale: Qualified votes FOR these items are warranted because: * The overall level of disclosure is beyond market practice; * Vesting period is at least three years; * The dilution level does not exceed our policy limits; * The earnings performance condition, which has a relative weight value of 80 percent, seems challenging. However, we note that the targets of the consolidated adjusted EBITDA for next tranches will be approved by supervisory board in the future. In addition, the market performance condition, which has a relative weight value of 20 percent, relates to the increase in the general WIG index and cannot be considered particularly challenging given the company's business profile.</i>

Voting Policy Rationale: A vote AGAINST the remuneration policy is considered warranted, in recognition of concerns raised regarding material uplifts proposed to the CEO's remuneration, including an increase to bonus opportunity from 250% to 300% of salary and an increase to restricted share opportunity from 125% to 200% of salary. The increased opportunity and certainty of reward is not considered sufficiently substantiated by the rationale provided by the Company. Voting Policy Rationale: A vote AGAINST is warranted because: * The report does not provide a justification for the significant increases (up to 19%) in the fixed pay of executives; * The company has failed to disclose the exhaustive, well-defined lists of performance conditions for the STI with applicable weights, targets, minimum and maximum thresholds, level of achievement of each of the targets, as well as the corresponding payouts; * The report does not provide any information regarding awards vested in 2024; * There is limited disclosure regarding the LTI awarded in 2024; * Some terms of the management contracts are not disclosed; * The members of company's supervisory board received retirement benefits in the framework of the Employee Capital Plan. However, we note that non-executive participation in the ECP is a common market practice, and the contributions are insignificant in comparison with the total remuneration of directors.

However, the executives did not receive variable remuneration during 2024; * Some contractual terms for the CEO and other executives were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards; * The company did not disclose the exit terms of two executives who left the company in 2024, namely Przemyslaw Cias and Jacek Owczarek; * The supervisory board member (Przemyslaw Budkowski) received retirement benefits in the framework of the Employee Capital Plan. However, we note that non-executive participation in the Employee Capital Plan is a common market practice.</i>

1	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST the remuneration policy is not considered warranted because: * The Company is proposing to make a one-off award for the CEO of 300% of base salary, which is not considered to be supported by cogent rationale. For shareholder awareness, it is also noted that concerns have also been identified in respect of proposed changes to the annual bonus and the introduction of a Triennial Share Award. However, these concerns alone would not have led to an adverse recommendation in the absence of the one-off award.						
2	Approve Share Awards Plan	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST is considered warranted for the Share Awards Plan because: * It facilitates a material one-off award of restricted shares to the CEO, which has not been supported by cogent rationale.
