7	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * There remains a third-party compensation agreement between the CEO and the reference shareholder. The potential for asymmetric accountability towards shareholders continues to raise significant governance concerns * The base salary to the CFO/COO was increased significantly during the year without a detailed explanation. * Pension contributions are considered high in the context of European market practice.</i>						
8	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * In addition to a somewhat vague derogation clause, the policy allows for broad discretionary adjustments to the STI and LTI in case of exceptional developments. * Pension contributions are considered high in the context of European market practice. * The third-party remuneration agreement between the CEO and majority shareholder continues to raise significant governance concerns and will continue to be of concern as long as the agreement is in place.</i>

13	Approve Virtual-Only Shareholder Meetings Until 2027	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the near future.

<i>Voting Policy Rationale: Item 3-5, 7-9 A vote FOR these Directors is warranted as no significant concerns have been identified. Item 6 A vote FOR the re-election of Mark Wood is considered warranted, although it is not without concerns for shareholders: * His tenure exceeds nine years at the upcoming AGM. The main reasons for support are: * The Company's explanation is acknowledged, as well as that the extension to the Board Chair's tenure is for up to two years.</i>

<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The level of disclosure provided in the remuneration report does not allow for an independent assessment of remuneration practices. * There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. * The newly appointed CFO and CLO received equity grants during the year that are not quantified or further explained. * The company's equity incentive plans have a high level of potential dilution.</i>

<i>Voting Policy Rationale: A vote AGAINST is considered warranted: * For the second consecutive year, concerns are raised regarding the appropriateness of the bonus payout, given the materially lower financial targets compared to the previous year, and in light of a decrease in the actual achievement of certain metrics. * The FY2025 LTI opportunity at grant is being increased from 150% to 175% of salary for the CEO and from 120% to 145% of salary for the CFO, despite the continued fall in the Company's year-on-year share price, which has resulted in a material uplift in the number of awards granted and raising concerns regarding windfall gains. * The LTI metrics for FY2025 were amended such that 65% of the awards will be subject to Total Accounting Return, which is also a bonus metric. This implies that EDs may be awarded twice for the achievement of the same performance under the STI and LTI.</i>

4	Re-elect Lennart Sten as Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: Item 4 A vote FOR the re-election of Lennart Sten is warranted, although it is not without concern: * Apart from his role as Non-executive Chair of the Company, he also serves as non-executive chair in two other public company boards, which could compromise his ability to commit sufficient time to his role in the Company. The main reason for support is: * The ISS policy states that, for the Board Chair, negative recommendations would first be applied towards non-executive positions held and the chair position itself would be targeted where they are being elected as chair for the first time. Nevertheless, this matter represents a material concern and will be kept under close review. Item 5 A vote FOR the re-election of Anna Seeley is warranted, although it is not without concern: * She is a non-independent NED and, as in previous years, the Board's composition is not compliant with the UK Code for a company of this size. In addition, she is the Nomination Committee Chair who is considered to be ultimately responsible for the Company's corporate governance practices. The main reason for support is: * There is a succession plan to appoint two independent NEDs in 2025. Items 6, 7, 9, and 10 A vote FOR these Directors is warranted as no significant concerns have been identified Item 8 A vote FOR the re-election of Elizabeth Edwards is warranted, although it is not without concern: * She is a non-independent member of the Audit Committee, which should be wholly independent under the Code. The main reason for support is: * There is a succession plan to appoint two independent NEDs in 2025. Items 6, 7, 9, and 10 A vote FOR these Directors is warranted as no significant concerns have been identified Item 8 A vote FOR the re-election of Elizabeth Edwards is warranted, although it is not without concern: * She is a non-independent member of the Audit Committee, which should be wholly independent under the Code. The main reason for support is: * There is a succession plan in place, and she intends to step down from the Board at the end of 2025.</i>

1	Accept Financial Statements and Statutory Reports	Mgmt	For	For	For	No
2	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted. The Company is introducing restricted share awards, in addition to increasing the maximum award size for performance shares, the latter with its own award multiplier. The aggregate LTI opportunity is thereby increasing from 250% to 300% of salary. While the value of RSP and PSP is at 1:2, the Remuneration Committee has discretion to determine the mix of LTI award types to be granted to the Executive Directors. The maximum bonus opportunity is also being increased from 150% to 200% of salary. Overall, the proposed remuneration policy represents a significant change in both quantum and structure that is not considered sufficiently justified by the Company's rationale, notwithstanding its merits.</i>

<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted: * The Company is increasing the maximum award opportunity from 250% of salary to 300%, plus a performance multiplier of up to 1.33x on any payout. The Remuneration Committee also has discretion to determine the mix of LTI award types to be granted to the Executive Directors. Overall, the proposed changes are not considered sufficiently justified by the Company's rationale.</i>						
6	Approve Restricted Share Plan	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted: * The Company is introducing restricted shares to the executive pay framework. The maximum RSP opportunity represents a 50% discount to the revised PSP opportunity that is also subject to shareholder approval. The Remuneration Committee also has discretion to determine the mix of LTI award types to be granted to the Executive Directors. 4	Approve Discharge of Board and Senior Management	Mgmt	For	For	Do Not Vote	No
5	Approve Remuneration Report (Non-Binding)	Mgmt	For	Against	Do Not Vote	No
<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * Fixed remuneration and STI payments are reported on aggregate, which inhibits a comprehensive understanding of executive pay. * There is no ex-post performance assessment to explain outcomes under the STI plan. * The report does not disclose any award parameters for the variable incentive plans. * Discretionary bonuses with a minimum guarantee may be awarded, though it is not confirmed if this option was utilized in the past year. * Granted compensation levels appear very high in the context of market practice and considering the company's size. * Non-executive directors (excluding the chair) received stock options in the past year.</i>						
6	Approve Remuneration of Directors in the Amount of CHF 310,000	Mgmt	For	Against	Do Not Vote	No
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * Realized board fees in FY24 significantly exceeded the amount approved by shareholders at the 2023 AGM, and the report does not provide any explanation for this feature.</i>						
7	Approve Remuneration of Executive Committee in the Amount of CHF 25 Million	Mgmt	For	Against	Do Not Vote	No
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted because: * The proposed amount appears excessive given the company's size and in the absence of any rationale.</i>

Board chair election (Item 9) A vote AGAINST Patrick Combes as board chair is warranted as a signal of concern to the board because the board is insufficiently gender diverse. <i>Voting Policy Rationale: Items 5-6 and 9 A vote FOR these Directors is considered warranted, as no significant concerns have been identified. I Item 7 A vote Against the re-election of the Board Chair Lucio Genovese is considered warranted, as: * The Board did not act on the reputational risks arising from Kostyantyn Zhevago's presence as a NED. Kostyantyn Zhevago, who, along with two family members, holds 49.3% of the Company's voting rights via The Minco Trust, which in turn owns Fevamotinic Sarl, was detained in the French Alps on suspicion of money laundering and embezzling funds. * Shareholders may question the unseating of the Executive Board Chair amid the ongoing Ukraine conflict and the fact that the Company has no CEO. This is especially the case now that the Company has confirmed that it intends to appoint a new CEO only after the war in Ukraine has ended. Nonetheless, although there is much to be said in relation to the merits of stability and continuity, this is not considered sufficiently mitigating to warrant support for the Executive Chair. Item 9 A vote AGAINST the re-election of NED Vitalii Lisovenko is considered warranted, as: * In his previous role as SID, he had a level of accountability for the Company's corporate governance practices, as well as its communication with shareholders and other stakeholders. * His re-election failed to receive the majority support of independent shareholders at the 2024 AGM. Nonetheless, he stayed on the Board until the strength of the controlling shareholder (Kostyantyn Zhevago) could ensure his official re-election at a separate general meeting. * As with the interim Executive Board Chair, shareholders may question the unseating of a long-standing NED at such a time of uncertainty. However, given his part in numerous corporate governance issues at the Company over many years, support is not considered warranted for his re-election despite his removal from the position of SID. As noted above, the specific corporate rights restrictions have been imposed on the Company's subsidiaries as part of series of legal proceedings against its controlling shareholder and founder, Kostyantyn Zhevago, relating to Bank Finance & Credit. These restrictions include the ability to vote shares. However, the Company has clarified that this restriction on the right to vote applies to its subsidiaries, and not its own shareholders for the upcoming AGM. Under the Listing Rules, independent NEDs at companies with a controlling shareholder must receive the support of at least a majority of both independent shareholders and all shareholders in order to be (re-)elected. The voting results for independent and all shareholders should be disclosed separately. The Company's Notice of Meeting states that this will be done.</i>

Kostyantyn Zhevago, who, along with two family members, holds 49.3% of the Company's voting rights via The Minco Trust, which in turn owns Fevamotinic Sarl, was detained in the French Alps on suspicion of money laundering and embezzling funds. * Shareholders may question the unseating of the Executive Board Chair amid the ongoing Ukraine conflict and the fact that the Company has no CEO. This is especially the case now that the Company has confirmed that it intends to appoint a new CEO only after the war in Ukraine has ended. Nonetheless, although there is much to be said in relation to the merits of stability and continuity, this is not considered sufficiently mitigating to warrant support for the Executive Chair. Item 9 A vote AGAINST the re-election of NED Vitalii Lisovenko is considered warranted, as: * In his previous role as SID, he had a level of accountability for the Company's corporate governance practices, as well as its communication with shareholders and other stakeholders. * His re-election failed to receive the majority support of independent shareholders at the 2024 AGM. Nonetheless, he stayed on the Board until the strength of the controlling shareholder (Kostyantyn Zhevago) could ensure his official re-election at a separate general meeting. * As with the interim Executive Board Chair, shareholders may question the unseating of a long-standing NED at such a time of uncertainty. However, given his part in numerous corporate governance issues at the Company over many years, support is not considered warranted for his re-election despite his removal from the position of SID. As noted above, the specific corporate rights restrictions have been imposed on the Company's subsidiaries as part of series of legal proceedings against its controlling shareholder and founder, Kostyantyn Zhevago, relating to Bank Finance & Credit. These restrictions include the ability to vote shares. However, the Company has clarified that this restriction on the right to vote applies to its subsidiaries, and not its own shareholders for the upcoming AGM. Under the Listing Rules, independent NEDs at companies with a controlling shareholder must receive the support of at least a majority of both independent shareholders and all shareholders in order to be (re-)elected. The voting results for independent and all shareholders should be disclosed separately. The Company's Notice of Meeting states that this will be done.</i>

Voting Policy Rationale: Items 4, 5, and 7-10 A vote FOR these Directors is warranted as no significant concerns have been identified. Item 6 A vote FOR the re-election of Alan Giddins is warranted, although it is not without concern: * He is a non-independent NED who is a member of the Remuneration Committee, which is not in line with the recommendations of the UK Code. * As Board and Nomination Committee Chair, Alan Giddins is considered responsible for incorporating sufficient diversity on the Board. It is highlighted that there is not at least 40% women on the Board at the reference date. The main reasons for support are: * All NEDs serve on the Remuneration Committee and questions around Alan Giddins' independence relate to his interim executive role, which was only put in place to facilitate the recruitment of a new CEO. * There is an ongoing succession plan for the Chair role, and Alan Giddins intends to step down at the 2026 AGM upon the appointment of a suitable successor. * The Company has provided a commitment to increase diversity across the Group.

Votes AGAINST the non-independent audit committee chair, Florian Ernst, as well as the executive member, Benedikt Goldkamp, are warranted due to the failure to establish a sufficiently independent committee. Votes FOR the remaining nominees are warranted due to a lack of further concerns. Compensation committee elections (Items 5.2.1 – 5.2.3) Votes AGAINST the non-independent nominees, Beat Siegrist and Martin Furrer, are warranted because of the failure to establish a sufficiently independent committee and because their elections to the board do not warrant support. A vote FOR the remaining nominee is warranted due to a lack of further concerns.</i>

<i>Voting Policy Rationale: A vote AGAINST the grant of Share Appreciation Rights (SARs) to the CEO Dean Banks (Item 4) is warranted. The recommendation is based on the inconsistencies with good corporate governance standards in the local market in regard to the following matters: * 33 percent of the LTI grant has a two-year performance period which is below the minimum expected in the local market of three years. * Poor and absent disclosure of specific and quantified targets for the FY25 LTI pre-grant assessment performance measures, and pre-vest ROE target and stretch hurdles. * Dividends on unvested shares, where the CEO will be entitled to additional shares or cash equivalent to the notional dividends accrued on shares during the performance period. In this period, there is no ownership nor present entitlement to the shares or dividends on them.</i>

Items 8-9 Votes AGAINST the proposed authorization are warranted because: * The issuance request would allow for a capital increase without preemptive rights for up to 23.44 percent of the issued share capital. * The issuance request, when combined with the proposed authorized capital, represents an excessive total issuance volume.

4.7	Elect Tsai Chih chung, with ID NO.S101311XXX, as Independent Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A vote FOR the independent director nominees under Items 4.6-4.7 is warranted given the absence of any known issues concerning the nominees. A vote AGAINST the nominee under Item 4.5 is warranted because considered by the company as independent director, Chai chia ming is non-independent non-executive director under ISS' classification. A vote AGAINST the non-independent director nominees under Items 4.1-4.2 and 4.4 is warranted because the independence level will be 28.57 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote FOR the non-independent director nominee under Item 4.3 is warranted given his removal would be expected to have material negative impacts on shareholder value.</i>

A vote AGAINST the non-independent director nominees under Items 4.2-4.4 is warranted because the independence level will be 22.22 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote AGAINST the non-independent director nominees under Items 4.5-4.6 is warranted since the company has failed to disclose sufficient information such as the identity of the actual individuals who will serve on the board, which limits shareholders' ability to assess the quality of these representatives. A vote AGAINST the nominee under Item 4.7 is warranted because considered by the company as an independent director, Wang is a non-independent non-executive director under ISS' classification. A vote FOR the independent director nominees under Items 4.8-4.9 is warranted given the absence of any known issues concerning the nominees.

3	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted. * There is no disclosure that bonuses were reduced to account for a fatality that was reported during FY24. This does not appear to reflect the level of accountability expected in the local market amongst ASX300 companies. Typically, at a minimum, the safety performance measure in the STI is reduced to a nil result. * There appears to be no formal policy on fatality, which is inconsistent with better market practice amongst large ASX-listed entities. * There is poor and absent disclosure of any specific or quantified targets in the STI to provide shareholders with line-of-sight on target rigor and justify bonus outcomes; * The former CEO's LTI award was granted without shareholder approval, which is not in line with good corporate governance; * There is potential for double counting, given the inclusion of a FOB cost measure in the STI and LTI; and * There is an absence of minimum shareholding requirements for executive KMP and non-executive directors.</i>

<i>Voting Policy Rationale: A vote FOR the independent director nominees under Items 4.5 and 4.7 is warranted given the absence of any known issues concerning the nominees. A vote AGAINST the nominee under Item 4.6 is warranted because considered by the company as independent director, Lin, Chin-Miao is non-independent non-executive director under ISS' classification. A vote FOR the non-independent director nominees under Items 4.1-4.2 is warranted given their removal would be expected to have material negative impacts on shareholder value. A vote AGAINST the non-independent director nominee under Item 4.3 is warranted because the independence level will be 28.57 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote AGAINST the non-independent director nominee under Item 4.4 is warranted since the company has failed to disclose sufficient information such as the identity of the actual individuals who will serve on the board, which limits shareholders' ability to assess the quality of these representatives.</i>

Such amendment will undermine shareholder's right in deciding on cash dividend payments.</i>						
4.1	ELECT NON-INDEPENDENT DIRECTORS AND INDEPENDENT DIRECTORS VIA CUMULATIVE VOTING Elect TSAI HUO-LU, with SHAREHOLDER NO.1, as Non-independent Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A vote FOR the independent director nominees under Items 4.8-4.9 is warranted given the absence of any known issues concerning the nominees. A vote AGAINST the non-independent director nominees under Items 4.2-4.3 and 4.5-4.6 is warranted because the independence level will be 22.22 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote FOR the non-independent director nominees under Items 4.1 and 4.4 is warranted given their removal would be expected to have material negative impacts on shareholder value.</i>

3	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
	<i>Voting Policy Rationale: This item warrants a vote AGAINST. The company appears insufficiently responsive to shareholder dissent, and the proposed remuneration policy continues to raise concerns mostly due to the following reasons: * The remuneration package of the CEO remains high relative to market standards, mostly due to high non-variable pay components (almost EUR 2 million). * The policy on termination payments is not in line with good market practice. * The board maintains excessively broad discretionary and derogation powers.</i>

Such practice does not appear to be necessarily in line with the interests of minority shareholders and was not justified by any sound rationale; * Tamas Szabados and Manuel Joao Almeida Do Vale Goncalves Marques left the executive positions in 2024. The report lacks further details such as severance pay, notice period; * The members of the supervisory board received remuneration from the entities from the same group of companies, including performance-based remuneration. 3	Approve Financial Assistance in Terms of Section 44 of the Companies Act	Mgmt	For	For	For	No
Voting Policy Rationale: Special Resolution 3 A vote FOR this item is warranted, although it is not without concern: * The Company seeks an authority to provide financial assistance to "any party" in connection with the subscription of options or securities issued or to be issued by the Company, or in relation to the purchase of securities. This is a broader authority than some shareholders may prefer to approve in advance. The main reason for support is: * The potential recipients of this financial assistance exclude the Directors or prescribed officers of the Group. The Company previously defined these as "a reference to legal/juristic entities (e.g., banking institutions etc) as well as natural persons". Special Resolution 4 A vote FOR this item is warranted: * This is a routine request, proposed as a result of the implementation of the Companies Act 2008.

<i>Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the near future. In this vein, the company only vaguely addresses the circumstances under which in-person meetings might be held in the future.</i>

<i>Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the future.</i>

<i>Voting Policy Rationale: A vote FOR the remuneration policy of the CEO is warranted but not without concern as there is a limited disclosure on LTIP regarding the type of instruments used, the performance conditions, and the minimum performance period is not disclosed (Item 6). The main reasons for support are notably related to the improved company's disclosure as follows: * The disclosure of the base salary, which was not disclosed in the past. * The introduction of an annual bonus and the disclosure of a cap, performance criteria attached and their weighting. * The LTI plan is capped. * If the proposed policy is not approved by the 2025 AGM, the current remuneration policy where the level of disclosure is lower, i.e., no disclosure on the base salary and the absence of any variable remuneration will remain applicable. Vote FOR the remuneration policy of directors is warranted because it does not raise any significant concerns (Item 8). The main reasons for support are notably related to the improved company's disclosure as follows: * The disclosure of the base salary, which was not disclosed in the past. * The introduction of an annual bonus and the disclosure of a cap, performance criteria attached and their weighting. * The LTI plan is capped. * If the proposed policy is not approved by the 2025 AGM, the current remuneration policy where the level of disclosure is lower, i.e., no disclosure on the base salary and the absence of any variable remuneration will remain applicable. Vote FOR the remuneration policy of directors is warranted because it does not raise any significant concerns (Item 8). Votes AGAINST Items 5 and 7 because the company specifies that vice-CEOs do not receive any remuneration in title of their mandate. As such, if appointed, they could receive other remuneration from outside the mandate, which may not be subject to shareholders' approval.</i>

8	Approve Virtual-Only Shareholder Meetings Until 2027	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the future. In this vein, the company only vaguely addresses the circumstances under which in-person meetings might be held in the future.</i>

11	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The company does not provide a breakdown of the variable remuneration components, sufficient for shareholders to assess individual elements contributing to overall variable portion of remuneration for the year under review. * Executives are eligible to receive cash bonus. However no further details were disclosed. * The company does not disclose exhaustive list of performance indicators, targets, levels of achievements, and corresponding payouts for the STIP. * The disclosure suggests that the performance period of the LTI is 12 months, followed by the vesting period of 12 months. * Supervisory board members received retirement benefits. Although we note that this is a common market practice in Poland, in this case, it is impossible to assess the level of contributions made to the pension scheme. * The increase of the supervisory board compensation was not supported by a compelling rationale.</i>

18	Approve Remuneration Policy	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST this item is warranted because: * Some contractual terms of company's executives, such as base salary, severance terms, non-compete agreement were not fully described by the company. * The base salary is not quantified or quantifiable, therefore, it is also not possible to assess the maximum quantum of variable compensation. * The policy does not determine the exhaustive list of performance conditions with applied metrics. * The policy foresees the possibility to grant cash prizes, sign-on bonus, retention bonus to executives, while no further details including performance conditions were disclosed. Neither the caps on such remuneration were determined. * The members of company's supervisory board may participate in employee capital plan, which provides retirement benefits. However, we note that non-executive participation in the employees capital plan is a common market practice. * The disclosure on the incentive plan is limited. We note that the Incentive plan which is currently in force falls shortly of the best market practice. * STI is not the subject to malus or clawback agreements.

12	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The STI plan lacks information on specific calculation, threshold and target of the performance indicator. Moreover, disclosure is with a one year lag as the STI payout concerns a bonus earned in 2023 paid in 2024, in deviation of SRD II reporting guidelines. * The company does not disclose some contractual terms of the executives, namely notice period or severance payment; however, this concern is partially mitigated as no termination payments were granted in the year under review. * The report does not provide for the possibility to demand reimbursement of variable remuneration, this concern is somewhat mitigated as the company did not grant any equity awards in 2024. * The members of company's supervisory board received retirement benefits. However, we note that non-executive participation in the Employee Capital Plan is a common market practice, and the contributions are insignificant in relation to the total directors' compensation.</i>

16	Amend Remuneration Policy	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the proposed remuneration policy is warranted because the new version of the remuneration policy does not address major concerns with the current version of the document: * Some contractual terms of company's executives were not fully described by the company; * The company does not disclose base salary for executive and non-executive directors; * The company does not disclose all performance criteria and their parameters for the STI; * The policy does not disclose any performance conditions for the LTIP. Performance and vesting periods are also not disclosed; * The company's policy stipulates that the variable part of a board member's remuneration can be max. 90% of their total annual remuneration, however this limit can be exceeded if certain conditions are met. As such there is no absolute cap on variable remuneration; * Claw-back and malus provisions on equity awards are not disclosed. Furthermore, the policy does not provide for a return of STI cash bonuses; * The derogation clause in the policy is broadly-defined and lacks clarity; * The members of company's supervisory board may participate in Employee Capital Plan, which provides retirement benefits. However, we note that non-executive participation in the ECP is a common market practice.</i>						
17	Approve Incentive Plan	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST this item is warranted because: * The minimum vesting period is 12-months; * The performance periods are rather short and overlapping. We also note that the concurrent implementation of two overlapping incentive programs with identical performance metrics but differing structures may reduce transparency and make it more difficult for shareholders to assess the overall effectiveness and strategic intent of the company's remuneration framework</i>						
18	Approve Variable Compensation for Purpose of Incentive Plan	Mgmt	For	Against	Against	Yes

19	Authorize Share Repurchase Program for Purpose of Incentive Plan	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the proposed share repurchase program is warranted because although the proposal is in line with commonly used safeguards regarding volume, the shares bought back under the program will be used for the purpose of the company's incentive plans, whereas concerns are raised with respect to the short performance- and vesting periods.</i>

Voting Policy Rationale: A vote AGAINST this item is warranted because: * There is no specific limit on bonuses under the executives' STIP; * Performance outcome under the STIP has not been fully disclosed and explained, which limits the shareholders' ability to comprehend the alignment between pay and performance of executives; * The company operates a partially lagged disclosure of its STIP, as it takes performance from 2023 into account for the performance criteria; * Civil-law contract remuneration has significantly increased in the year under review for two executives, while the company has not disclosed any details regarding the services provided and rationale for the increase; * Four members of the supervisory board received retirement benefits. There should not be an existing retirement benefit scheme for non-executive directors. However, we note that non-executive participation in the retirement benefits schemes is a common market practice, and the level of contributions is insignificant in relation to the total compensation.

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction	Vote Against Mgmt
17	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the proposed remuneration report is warranted because: * Leszek Stankiewicz, the company's former executive, received a 14 percent fixed salary increase in 2024, the reasons for which are not outlined in the remuneration report. * Mikolaj Konopka received significant compensation in the form of a fixed salary and profit bonus from the company's subsidiary, Euro Styl SA, while the company failed to provide a sufficient explanation of this practice. * The executive director Terry Roydon provided additional consulting services to the company as part of Hansom Property Company Limited. The services amounted to PLN 528,000. The company failed to provide a sufficient explanation of this practice. * Terry Roydon's variable compensation exceeded five times his annual fixed salary amount, prescribed by the policy as a cap on variable remuneration. The company failed to provide a sufficient explanation of this practice. * The report lacks disclosure on an exhaustive list of performance criteria, thresholds, targets, levels of achievement, and corresponding payouts applicable to the STI grants. As such, shareholders are not in a position to assess the alignment between pay and performance. * The company reports the aggregate variable payout from two different programs: the Senior Executive Compensation Plan (STI) and the long-term discretionary bonus program as a lump sum, without providing a sufficient and clear breakdown. * Part of variable remuneration is allocated based on long-term discretionary bonus program. While this remuneration is calculated based on a specified percentage of the company's consolidated gross profit, the report fails to address the potential discretion exercised under this element of variable remuneration. * The company has paid out remuneration in the form of a stock option to two executives, with maturity of the instruments shorter than three years, and a strike price set at approximately 70 percent discount to the market price of the company's shares at the time of writing the option. The company did not provide a substantial explanation of this practice. * Some contractual terms for the company's executives were not disclosed by the company, which makes it impossible to assess whether the company complied with European market standards. * The company does not provide for the possibility of requesting the return of variable remuneration components.</i>

<i>Voting Policy Rationale: A vote AGAINST this item is warranted because: * The company does not disclose amounts of fixed component of the salary of executive directors. Furthermore, it does not explain in detail its policy for setting and reviewing salary levels; * The policy does not cap STIP payments, and instead caps the STIP and LTIP in aggregate at 500 percent ABS. This does not allow investors to gauge the balance between short and long-term variable compensation; * The policy provides for further uncapped one-off awards to the management board; * The policy does not contain information on KPIs and their weights for the STI; * The LTI lacks disclosure on performance conditions, their weights, thresholds, and targets. Moreover, the vesting and performance periods for the LTI are not disclosed; * The supervisory board may be awarded with financial instruments or other non-cash benefits related to company performance. As such, the supervisory board is allowed to participate in incentive schemes; * The company's remuneration policy includes a derogation clause which is of rather general nature. The derogation clauses should clearly define and limit any elements of compensation framework and extent to which derogations may apply.</i>

14	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The company has failed to disclose the specific performance conditions, targets, minimum and maximum thresholds, level of achievement of each of the targets, as well as corresponding payouts for the STI. As such, shareholders are not in position to assess the alignment between pay and performance and the appropriateness of the variable payout. * The executives received warrants for performance in fiscal 2023 and for the period 2021-2023 as per the LTI plan, while the remuneration report lacks details disclosure regarding the application of the performance conditions with the levels of the achievement. Further, the vesting of the awarded warrants occurs less than in three years. * Some terms of the management contracts, including more details regarding the severance terms and non-compete agreement, were not disclosed. * The executive, Wojciech Szwarz, who resigned from the management board for the personal reasons according to the company's announcement of May 27, 2024, was entitled to receive a severance pay, which is not in line with common market practice. Besides, the remuneration report lacks disclosure in relation to the terms of termination of the contract with the executive. * The members of company's supervisory board received retirement benefits. However, we note that non-executive participation in retirement benefits schemes is a common market practice, and the level of contributions is insignificant in relation to the total compensation.</i>

10	Advisory Vote on Remuneration Report	Mgmt	For	Against	Against	Yes
Voting Policy Rationale: A vote AGAINST this item is warranted because: * The board's qualitative assessment accounts for 60 percent of the chair/CEO's annual bonus and the resulting payout is not accompanied by sufficient performance achievement disclosure. Moreover, certain performance objectives already seem to fall within ordinary scope of management responsibilities. * The board does not substantiate significant, repeated increases in the chair/CEO's base salary, and the resulting fixed pay components appear excessively generous.

A well-defined LTIP is an important tool in aligning the interests of the company's managers with those of the company's shareholders; * The company fails to provide a compelling rationale for the significant increase (+11 percent) in the fixed pay of one executive, Maciej Szczechura; * The members of company's supervisory board may receive retirement benefits. However, we note that non-executive participation in retirement benefits schemes is a common market practice.</i>

Voting Policy Rationale: Item 1 A vote FOR this resolution is warranted given the absence of any known issues concerning the nominee and the company's board and committee dynamics. Item 2 A vote FOR this resolution is warranted, however it is not without concerns: * The commission element lacks an absolute cap and there are no disclosures on the threshold and target performance the executive needs to achieve to determine the payout under the above element. * The quantum of stock options that can be granted is as per NRC's discretion and the company has not disclosed the performance metrics, targets and thresholds for vesting of such options. The main reason for support is: * The overall proposed pay of the executive is reasonable compared to market peers with similar size and scale of company's operations.

A vote AGAINST the non-independent director nominees under Items 4.2-4.3 and 4.5-4.6 is warranted because the independence level will be 22.22 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote FOR the non-independent director nominees under Items 4.1 and 4.4 is warranted given their removal would be expected to have material negative impacts on shareholder value.

1	Approve Reappointment and Remuneration of Kailash Katkar as Chairman and Managing Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A vote FOR this resolution is warranted, however it is not without concerns: * Kailash Katkar is an executive director serving on the nomination and remuneration committee. * Sanjay Katkar is an executive director serving on the audit committee. * The pay structure is open ended as committee has discretion to determine the remuneration in case of profits. * The company has not given a breakup of remuneration in form of salary, allowance and incentives. * The board proposes to pay the executives an overall remuneration capped at INR 22 million in case of inadequacy of profits. The main reason for support is: * The nominees are the chairman and managing director and founder of the company and removing them from the board would have a material negative impact on shareholder value. * The executives' pay is in line with the market peers and commensurate with the size and scale of company's operations.</i>

Voting Policy Rationale: A vote AGAINST is warranted because: * While the company discloses the list of performance conditions, we note that some of the KPIs are not sufficiently specific, the reports does not disclose ex-ante established targets and the corresponding levels of their achievement. Therefore, shareholders are in no position to align the executives' remuneration with performance. * The report does not provide target indicators and their values, as well as the corresponding levels of achievement and payout structure for LTI plan. * The company's executive, Krzysztof Sierota received one-off bonus of PLN 900,000. The company has failed to present necessary details in relation to paying out one-off bonus. * Directors received compensation from subsidiaries, the more details disclosure of the contractual term with the subsidiaries would be beneficial.

11g	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The supervisory board has full discretion in determining specific performance conditions, their respective weights, the methodology for measuring achievement and distributing awards, and the scope and principles governing executive benefits; * The company has not disclosed the short-term incentive targets, including the minimum and maximum thresholds, the level of achievement for each target, and the corresponding payout. As a result, shareholders are unable to assess the alignment between executive compensation and company performance, as well as the appropriateness of the variable payout. However, performance metrics and relative weighting is disclosed. * Additionally, certain performance conditions are linked to the performance of the company's major shareholder, ENEA Group. This approach may not necessarily align with the interests of minority shareholders. * Three executives were dismissed (Dariusz Dumkiewicz, Adam Partyka, Kasjan Wyligala) during the year in connection with serious allegations of collusion and whether they acted in the interest of shareholders. In this context concerns are raised with respect to the appropriateness of non-compete and severance indemnities.</i>

The derogation clauses should clearly define and limit any elements of compensation framework and extent to which derogations may apply. * Arrangements regarding the post-mandate exercise of equity-based awards are not disclosed by the company. * Retirement benefits for the supervisory board members. The members of the supervisory board are entitled to receive retirement benefits. However, we note that non-executive participation in retirement benefits schemes is a common market practice.

1	Approve Reappointment and Remuneration of Satish Parakh as Managing Director	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A vote FOR these resolutions is warranted, although it is not without concerns: * The company has not disclosed the weightage, threshold and target performance that he needs to achieve to determine the outcome under variable pay. * The resolution provides discretion to the board to increase the executive's remuneration by up to 20 percent. Increments in fixed pay should be accompanied with adequate rationale justifying the increase. * The company has failed to provide the split between fixed pay components in the proposed remuneration. The main reason for support is: * The overall remuneration is capped, deemed reasonable and commensurate given the size and scale of the company's operation and is in line with market peers.</i>

13	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The former executives, including former CEO Pawel Majewski, received termination payouts, whereas discharge was not granted by 2024 AGM and the supervisory board dismissed the concerned executives from the management board. The report does not provide further background on the considerations to pay severance and non-compete compensation instead of triggering a bad leaver provision; * The company provides lagging disclosure on variable incentives, i.e. it disclosed the variable remuneration paid in 2024 regarding achieved performance in 2023; and * The company does not disclose some of the KPIs in a definitive form, the associated targets and their achieved values. Further, at the time of this analysis, level of achievement of KPIs for 2024 was not yet determined by the supervisory board. As such, the shareholders are not in position to fully assess the performance outcomes for the year under review, and the functionality of remuneration policy.</i>
